ELEVATOR TP06

WI

PCBY2LLON

TECHNOLOGY

At the heart of the TP06 elevator is a spiralift, which is well known technology used by theaters, operas and live studios around the world that have invested in stage effects to deliver a high impact experience for their audiences. Next step in our innovation journey is that from now on the system is also being offered as a mobile solution.

MAIN FEATURES

COMPACT DESIGN
RELIABLE
STURDY
EASY TO INSTALL

ADAPTABLE
MINIMAL MAINTENANCE
HIGH PRECISION
SIMPLE OPERATION

SPECIFIC

- Spira Elevator
- Specifically designed to fit a standard scaffolding bay of 2m x 2m
- TP06 elevator lift units can easily be configured to suit any platform geometry
- Multiple units can be linked to the same control system and fully synchronized

CONTROL

- Integrated in our WIMOTION platform
- Compatible with any other motion control gear from rental stock
- Operation remote controller or control panel
- Local or via show control
- Preset and recall of any configuration
- Perfect sync with video, light, sound, scenic objects or effects

ALL WILIFTS

- Can be handled with a forklift
- Fast assembly / disassembly
- Quiet operation that won't hinder activities
- Compliant with all safety regulations
- Safety procedures explained onsite
- Tourable

SPECIFICATIONS

One unit of the TP06 elevator is specifically designed to fit a standard scaffolding bay of 2m x 2m.

MAX Load: 2,5t/unit
MAX Speed: 250mm/s
MAX Travel: 8m
MAX Height: 10m
MIN Height: 1,7m
POWER: 63A/unit

Every set-up is calculated and simulated into detail before any show is programmed.

WICREATIONS

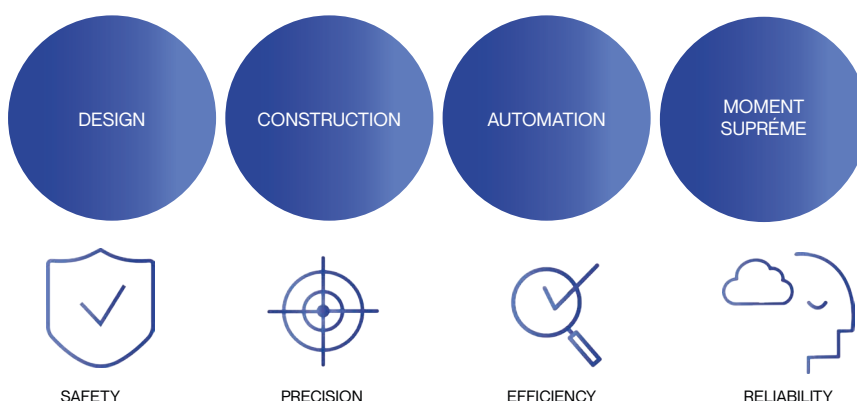

With WICREATIONS founded by Hans Willems in 2005, we are a world player in entertainment engineering, motion control, scenic and staging solutions for the live event sector. Our portfolio includes 250+ national and international shows, tours, festivals, theme parks, television and film productions, fashion events, sports and corporate shows. Amongst our clients we can count the biggest bands on earth such as The Rolling Stones, Rammstein, Ed Sheeran as well as local heroes and DJ's.

CORE BUSINESS

Prime motion technologies that create unique and spectacular upper and lower stage effects. A wide range of integrated systems and structures such as stage elevators, fly winches, moving hoists, tracking systems, turn tables and rotators are also available either on a rental base or complemented with custom fabricated elements, all of these operated via WIMOTION, our proprietary stage motion control system.

During the pandemic we further developed the WIMOTION ecosystem: a 360° cloud solution for all motion elements of a project aimed at facilitating pre-show collaboration and feedback thanks to realtime previsualization.

We combine passion for the entertainment industry with an unwise addiction to tech and a stubborn focus on always delivering the best solution ever.

How to shift our focus
towards a more
sustainable company
and circular production?

SUSTAINABILITY

WI sure are very innovative as to our core business, but the last couple of years we clearly felt the urge with many WI people, clients and audiences to do more and give back to nature, planet and people.

September 2021 we stepped into the 3-year UN sustainability program for a structural approach supported by VOKA expertise, the Belgian Chamber of Commerce.

KEY FOCUS AREAS

9 areas have been selected grouping clearly defined actions within the 17 UN SDG's guided by 3 driving principles:

Alertness to always consider the most sustainable approach in every action big or small we undertake

Equal respect, opportunities and a non-judgemental environment for everyone

Support for ideas that aid the achievement of new green technologies and sustainable targets
